Single Line Kites

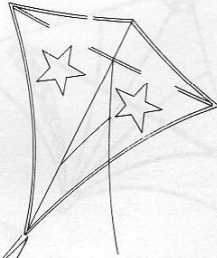

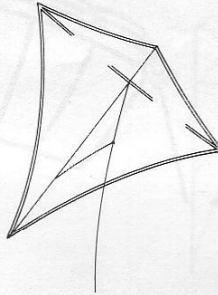

Plain Malay

A traditional style kite with ribbon tails, beautifully made and easy to fly.

Size: 84x88cm

Line and handle included.

Wind: light to medium

Malay Applique

Once again this is a traditional style kite with ribbon tails and an attractive hand applique.

Very good colour combinations.

Size: 84x88cm.

Line and handle included.

Wind: light to medium

Dan Leigh Delta

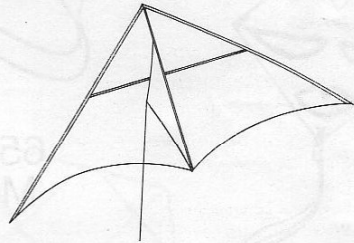

A large delta which will soar effortlessly to a great height in very light winds.

Size: Trailing edge 165cm

Line: 100lb

Handle: any single line winder

Wind: light to medium

Octagon

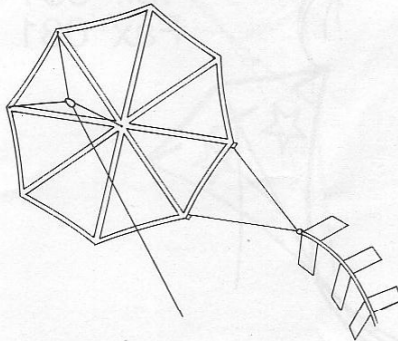

Bermudan type kite with multicoloured panels and a super long tail. Very spectacular in flight.

Size: 89cm diameter

Line: 100lb

Handles: Any single line winder

Wind: Smooth medium

Kat

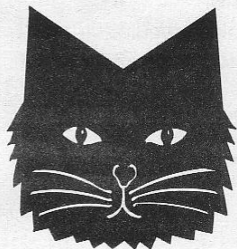

The cat lovers favourite, a large black cat face with bright coloured eyes and white whiskers, balanced with a 24 foot long tail.

Size: 94x91cm

Line: 50lb

Handles: Any single line winder or spool

Wind: Medium

Crystal

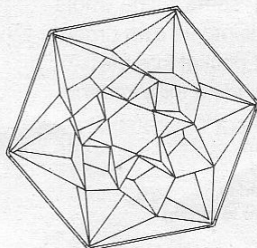

A large spectacular kite that moves in the sky to display all its colours and facets. A well made and robust tumbling kite.

Size: 149cm diameter x 82cm deep

Line: 100lb

Handles: Any single line winder

Wind: medium to Strong

Seagull

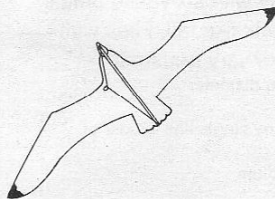

A realistic white seagull with black wingtips which flap in flight. They look wonderful linked - fly a flock - even the birds with be fooled!

Size: 183cm wingspan

Line: 30lb

Handles: 30lb spool

Wind: Medium

Bat

Black and spooky - but great fun and very easy to fly. The light shines through its eyes and its ears stick up.

Size: 168cm wingspan

Line: 30lb

Handles: 30lb spool

Wind: Medium

Slipstreamer

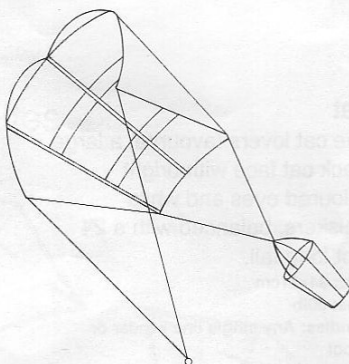

No assembly is required for this simple to fly version of a sled kite.

Size 110x61cm

Line included

Handle included

Wind: Medium to strong

Traveller

A ram-air kite that requires no supporting spars. The whole thing packs into its own drogue.

A compact pocket kite the

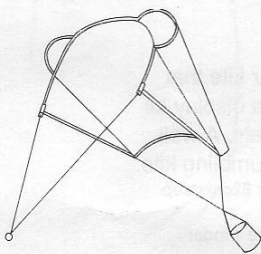

Traveller is ideal for climbers and walkers.

Size: 80x52cm

Line included

Handles included

Wind: Medium to strong

Flying Flower

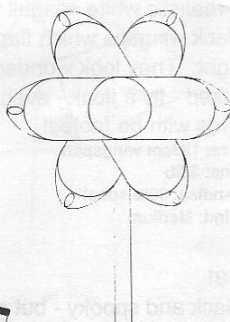

A large flower which grows up in the sky with six yakko petals and a stalk-like tail. Flies well and looks very unusual.

Size: 91cm diameter

Line: 50lb

Handle: Any single line winder or spool

Wind: Medium

Zyte

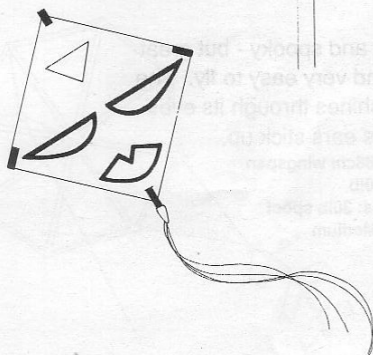

A small and spectacular "fighting" kite with a colourful face. A different and attractive gift which is suitable for novices thanks to its long tail.

Size: 33cm square

Line included

Handles included

Wind: Light to medium

an envelope.

Plain Delta

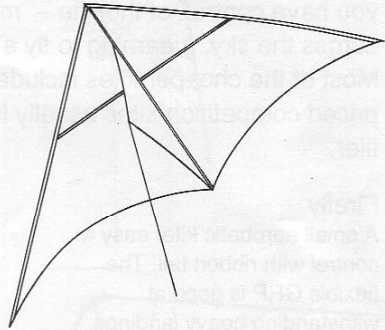

The very easiest of all kites to fly, it will soar with the lightest of breezes.

Size: Trailing edge 154cm

Line included

Handles included

Wind: Light to medium

Rainbow Delta

The same flying abilities as the plain delta but in a rainbow of colours.

Size:Trailing edge 154cm

Line included

Handles included

Wind: Light to medium

Classic Roller

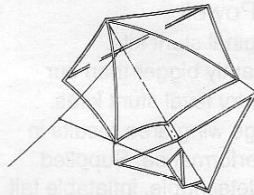

A very stable high flyer. A traditional design the Roller has long been a favourite of many kite fliers.

Size: 113x108cm

Line: 100lb

Handles: Any single line kite winder

Wind: Light to medium

Legs

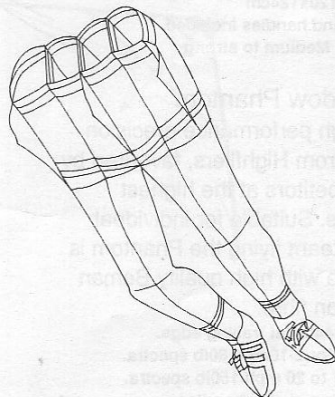

A wonderfully jokey parafoil. Either a footballers legs wearing shorts and boots or Natalie's legs in black stockings and suspenders.

Size: 240x78cm

Line:100lb

Handles: Any single line kite winder

Wind: Medium to strong

Stunt Kites

Two line kites are fast and furious fun. Holding a line in each hand you have control of the kite – make it loop, dive and sweep across the sky. Learning to fly a stunt kite is easy and rewarding. Most of the cheaper kites include handles and line, the higher priced competition kites usually leave the choice to the individual flier.

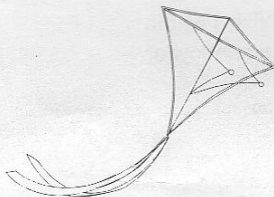

Firefly

A small aerobatic kite, easy to control with ribbon tail. The flexible GRP is good at withstanding heavy landings. Available in single and three colour versions.

Size: 84x88cm.

Line and handles included.

Wind: Light to medium.

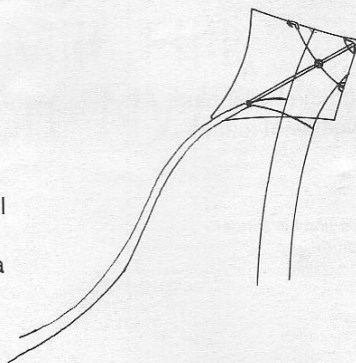

Peter Powell

The original stunt kite. Significantly bigger than our other entry level stunt kites. The large wing area results in good performance. Supplied with a detachable, inflatable tail the Peter Powell Mk2 is ideal for flying singly or stacked for a really spectacular effect.

Size: 120x124cm

Line and handles included

Wind: Medium to strong

Shadow Phantom

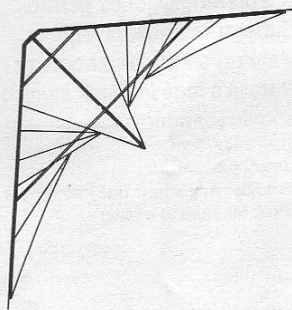

A high performance precision kite from Highfliers, favoured by competitors at the highest levels. Suitable for individual and team flying the Phantom is made with high quality Beman carbon fibre.

Size 244cm at trailing edge.

Line: For 2-10mph 80lb spectra.

For 11 to 20 mph 150lb spectra.

Premium quality handles recommended.

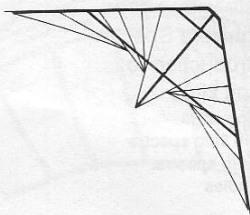

Sport Phantom

A more robust high performance kite with AFC carbon fibre spars. The slightly smaller sail area improves performance in higher winds.

Size: 244cm at trailing edge.

Line: 150lb

Premium quality handles recommended.

Sandpiper

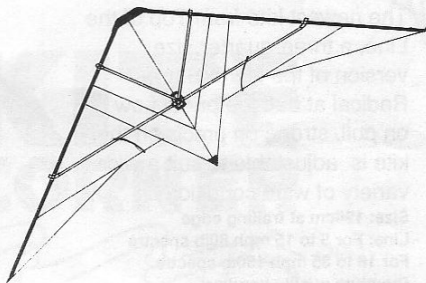

Designed and built by Beaker. The novel V shaped frame of this kite makes it very rigid giving an even pull and predictable handling. The lightweight construction gives good low wind performance but requires gentle treatment.

Wind speeds: 4 to 25 mph

Size: 260cm at trailing edge

Line: 150lb spectra

Premium quality handles recommend.

K1

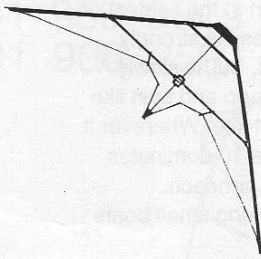

Fast and very noisy. The exceptional rate of turn makes this a spectacular kite to watch and a taxing kite to fly. With very little pull it is a good choice for stacking.

Wind speed 10 to 35mph

Size: 188 cm at trailing edge

Line: 80lb spectra (single kite)

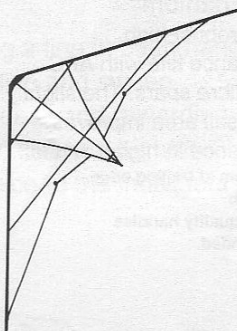

Lightweight straps recommended

Spectre

Fast and accurate with a good solid pull the Highfliers Spectre is a excellent introduction to high quality sports kites.

Size: 190cm at trailing edge
Line: For 5 to 15 mph 80lb spectra
For 16 to 35 mph 150lb spectra.
Premium quality handles recommended

North Shore Extreme

The newest kite from Top of the Line, a three-quarter size version of the North Shore Radical at half the price. Low on pull, strong on precision this kite is adjustable to suit a wide variety of wind conditions.

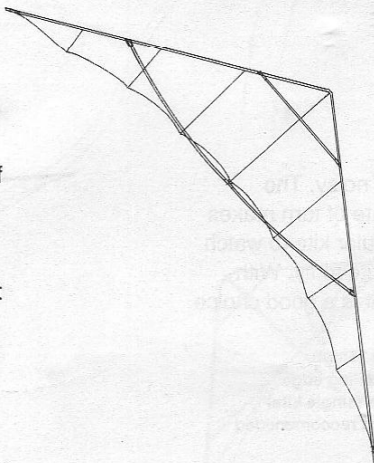

Size: 190cm at trailing edge
Line: For 5 to 15 mph 80lb spectra
For 16 to 35 mph 150lb spectra.
Premium quality handles recommended

The
North Shore Extreme
is so new we have not had
time to prepare a picture

Force 10

The most spectacular big wing delta, a huge power kite with a lot of pull, even in the lightest of winds. A harness is strongly recommended. Turns slowly but is able to loop and spin like a smaller stunt kite. Wherever it goes the Force 10 dominates the flying field or beach. Suitable for towing small boats and buggies.

Size: Nearly 16 feet
Wind Speed: 4 to 40 mph
Line: 450lb spectra
Heavy duty straps and harness recommended.

Please call for details of our constantly changing stock of stunt kites from around the world
